

Pan-Tilt-Zoom Camera

Features:

- Light weight
- Fast detach wheels
- Tough Aluminum housing
- High speed PTZ Camera
- Strong spoked wheels

The field proven PTZ camera is a reliable tool for a large spread of video inspections. Its axial configuration navigates even the most difficult obstacles.

RAISERIDER

PTZ Camera

Performing video inspections of raises and passes can be challenging. The SilverReach PTZ camera has proven track record of navigating the most challenging of situations. It's lanky wheels, small form tires and field proven stance allows maximum stability

Pan-Tilt-Zoom Camera

Product Details

The design allows the carrier to proceed even in the event of full inversion as walls and surfaces dictate. It provides ample ground clearance to protect the camera and carries dual hi-intensity LED flood lamps with internal power and signal conditioning to provide a live video link to the operators console.

Specifications

It's tough machined aluminum housing takes a beating while protecting essential components for effective control of the Pan/Tilt/Zoom camera. Deploying the carrier into raises fitted with formed raise-top grizzlies and mantles can limit the use of ridged framed devices. The SilverReach PTZ camera comes with one-hand (no-wrench) quick coupled wheel assemblies which allow the carrier to be passed through tight launch situations.

- Weight: 7.2 Kg (16lbs) with wheels
- Size: 700mm x 960mm (27H" x 38W")
- Connection: MIL spec (8 pole bayonet style)
- Camera: Full Pan/Tilt/Zoom control
- Video: 480 TV Lines NTSC (30fps)
- Pan Rate: 300deg/sec (full 360deg)
- Zoom: 10 x Optical zoom + 10 digital zoom
- Control: RS 485 (Multiple bit rates)

- Material: Machine formable PVC (grey)
- Fasteners: Stainless Steel
- Compatibility: SilverReach 300M winch
- Wheels: 27" dia c/w Quick-Attach feature
- Power: 110-220 vac (from suspension cable)
- Lighting: Dual 48w LED (Flood) Adjustable
- Pan Rate: 300deg/sec (full 360deg)
- Serviceability: Complete parts break down available
